[NJDEP Comments to EPA on RM10.9 PreFinalDesign 11 2012 - provided 1 4 2013.docx](#)

Attached are EPA and NJDEP comments on the Pre-Final Design Report submitted on November 30, 2012 for the RM 10.9 Time Critical Removal Action. Additional comments from other interested parties may still be submitted, but these should constitute the majority of the technical comments on the design.

We are willing to discuss any or all of these comments with you. We would also like to have a discussion with you about how best to finalize the design within the overall schedule.

Let's try to set up a call within the next two weeks to discuss our path moving forward. In the meantime, please let me know if you have any questions.

Thanks,  
Stephanie
